Duration: 15min    Servings: 2 persons    Level: ●○○ Easy

## Ferrero Rocher Easter Eggs

Follow the steps to create your very own Ferrero Rocher Easter Eggs.

After boiling the eggs or blowing out the yolks, color the eggs with spray paint, some gold and some white.

You will need a package of Ferrero Rocher.

Remove the Ferrero Rocher labels from the pralines and stick them around the colored eggs.

Spray paint the eggs again using the same color as before – this time with the labels.

Using a toothpick, gently remove the labels from each egg and stick them on the eggs of the opposite color.
